The

BLOOMFIELD COLLEGE

SAGA

1950

BLOOMFIELD, NEW JERSEY

# **FOREWORD**

This book is a record of things accomplished, a storehouse of long to be cherished memories. We are naturally proud of our accomplishments and of the distance thus far covered, but we also take cognizance of the even longer road which leads on into the unexplored future. We do not consider our successes as goals in themselves, but as milestones along the tortuous road of life. We present this brief chapter of the story of our lives conscious of the fact that, perhaps, the most important chapters are yet to be written.

# *To the Graduating Class of 1950 . . .*

After the initial thrill of seeing your picture and life history in print, you will probably put this copy of the **Saga** away among your keepsakes. Perhaps for a decade it will remain forgotten.

Those of us who graduated from college thirty-five years ago remember with what eagerness we examined our class books and how chagrined we were at the poor job the printer did with our portraits. We too put them away and forgot them.

But as time passed and we scattered — as fortune smiled on some and tragedy struck others — we began to hunt up the old class book to revive old memories of the happy associations of our college days.

My hope is that as you leave these venerable halls of learning you will carry with you not only the sterling qualities of character and the enriched storehouse of cultivated mind, but also the memories of happy associations with classmates and faculty that will ripen as the years hurry by.

God bless you and make you a blessing wherever you go.

Faithfully,

FREDERICK SCHWEITZER.

# DEDICATION---

DR. FREDERICK SCHWEITZER  
President of  
Bloomfield College and Seminary

To you, President Frederick Schweitzer, the class of 1950 affectionately dedicates this **Saga**. When you took over the leadership of our alma mater early in 1946, a new volume in the saga of her growth and expansion began. To have resigned your long and successful pastorate at Ridley Park, Pennsylvania, to accept this educational challenge required unbounded faith. In September of that year when you greeted our class, we were inspired by that faith, and thus we began our journey together. Since then four more glorious chapters have been written recording the wonderful progress made.

It has been a privilege and an honor to have shared in your odyssey. We are proud to have played a part, under your able leadership, in these significant years in the history of our institution. We pray that with God's blessing the work so bravely begun and persistently carried on may continue, and new and more glorious chapters may be added to the saga of our alma mater.

# ADMINISTRATION

# FA C U L T Y

Education does not mean teaching people what they do not know. It means teaching them to behave as they do not behave. It is not teaching the youth the shapes of the letters and the tricks of numbers, and then leaving them to turn their arithmetic to roguery, and their literature to lust. It means, on the contrary, training them into the perfect exercise and kingly continence of their bodies and souls. It is a painful, continual, and difficult work to be done by kindness, by watching, by warning, by precept, and by praise; but above all, by example.

John Ruskin.

# SAGA STAFF

To transform the idea of a yearbook into actuality has taken just one year. Last spring our class elected the Editor and his staff. Before the close of the academic year contracts had been signed with the publishers and photographers.

In September the machinery was really set in motion. A popular budget payment plan was instituted and most of the books were sold before Christmas. By mid-February all photography and literary work was completed and the **Saga** went to press on schedule.

The Editor wishes to express his gratitude to the faculty advisor, the staff, and other class members and interested students without whose cooperation the publication of this first post-war **Saga** could not have been possible.

We have not wings, we cannot soar;  
But we have feet to scale and climb  
By slow degrees, by more and more,  
The cloudy summits of our time.

The distant mountains, that uprear  
Their solid bastions to the skies,  
Are crossed by pathways that appear  
As we to higher levels rise.

## CLASS HISTORY

The history of the class of 1950 coincides with the phenomenon of expansion which has characterized higher education in post-war America. But perhaps what is even more significant to us is the fact that it also coincides with the expansion and growth of our own institution.

Most of the members of our class arrived on campus in the first post-war year in the fall of 1946. The class, composed predominantly of G. I.'s, numbered over one hundred strong, outnumbering the upperclassmen by more than 2 to 1. Needless to say, but fond to remember, perhaps, is the fact that we escaped the inconveniences of the traditional freshman initiation. It seems that the upperclasses weren't quite ready to deal with such overwhelming numbers, and the problem was speedily settled by a "diplomatic agreement."

The most significant undertaking of that first year was the reorganization of the student government. Several members of the class took the leadership in the needed reform; not the least of these was Carmine DiArpino. The old student association was finally dissolved early in 1947, and replaced by the B.C.S.A. Three of the four members of the first administration were members of this class. The new association was crowned with success. The extracurricular program was reinvigorated and plans were made for the publication of a Student Handbook. That May our class was well represented at the first Annual Dinner-Dance sponsored by the B.C.S.A. In spite of our success, the most important lesson derived from our first year of college was that we didn't have "all the answers."

Our sophomore year began with the welcome job of initiating the freshmen. The ridiculous uniforms of the day, the yellow paper derbies, the funeral procession and the symbolic burning of the freshman in the bonfire will not be easily forgotten.

The organizational activity begun the year before by the class continued. Carmine DiArpino was re-elected president of the B.C.S.A., with Walter Felgner as vice-

president and Don Callaway as treasurer. Largely through the efforts of members of our class the History and Pre-Theological Clubs, as well as the *Minuteman* were organized, and the Italian Club reactivated. In the spring of 1948, the B.C.S.A. officers and other interested classmates took the initiative in installing the Honor System at Bloomfield.

In September of 1948, we returned on campus as "Jubilant Juniors," glad to be over the halfway mark and closer to our final goal. Our class was now considerably reduced in size. However, what we had lost in members we seem to have gained in spirit. Our members were as active as ever in every phase of campus life. Leslie Lippincott was elected president of the B.C.S.A., Robert E. Rea, editor of the *Minuteman*, and George H. Wright, moderator of the Pre-Theologians. Several class members helped organize the Chess Club. Early in '49, at the request of the B.C.S.A., we successfully sponsored one of the dances. In the spring George Evans was put in charge of a project to buy class rings.

The biggest project of our senior year, by far, has been the publication of the *Saga*, which had been neglected for several years. In spite of the efforts required for this ambitious undertaking and the equally important planning of a commencement program the class has been well represented in extra-curricular activities with George Evans as vice-president of the B.C.S.A., Dolores Cupo, Glee Club president, Leslie Lippincott, managing editor of the *Minuteman*, and Mario Blasi still the class's most renowned sports figure.

And so we can justly say the Class of 1950, having achieved greater unity each year, has had an integral part in the post-war development of Bloomfield College. Class members have taken a very active part in every extra-curricular activity. And on the academic side, our class has earned a good scholastic average, with some members being consistent Honor Students.

There's a comforting thought at the close of the day,  
When I'm weary and lonely and sad,  
That sort of grips hold of my crusty old heart,  
And bids it be merry and glad.  
It gets in my soul and it drives out the blues,  
And finally thrills through and through.  
It is just a sweet memory that chants the refrain:  
"I'm glad I touched shoulders with you!"

## BLOOMFIELD COLLEGE STUDENT ASSOCIATION

As we completed our perusal of the somewhat dusty records of the B. C. S. A., we proceeded to write this article with what we believe to be a justifiable sense of pride.

The Association, in its present form, is scarcely more than three years old. However, its short history is a record of great activity and an impressive array of accomplishments which have been of considerable benefit to the students as well as our college. Among the more important accomplishments are the establishment of the Bloomfield Honor System, participation in the organization of the National Student Association, the publication of a student handbook, and the final translation of the suggested activities fee into actuality. The records also revealed plans for such items as student parking lots, a student store, and even the installation of an automatic washing machine. However, the greatest achievement of the B. C. S. A. has been the constant improvement of extra-curricular activities.

While the records reveal that the association has always enjoyed a high quality of leadership, it is also evident that these achievements were not the work of any one president or administration but a progressive and uninterrupted chain of activity. Needless to say, a very important factor in the success of the association has been the entire student body without whose active cooperation these accomplishments could not have been possible.

The 1949-50 Basketball Season marked the entrance of Bloomfield College into the New Jersey Inter-collegiate League. This entry thereby placed our small college in competition with most of the larger colleges in central and north Jersey. The Maroon and Gold Varsity which trotted onto the wooden-ways faced the toughest season in Bloomfield's history. The 21 game schedule included such strong opponents as Rider, Upsala, John Marshall, Panzer, and Montclair State.

Coach Wilbur Renken's proteges, drilled efficiently to use a "free-play" offensive and a tight "man to man" defensive, blended into a team of unified thought and motion, whose symmetry made our boys a pleasure to watch and difficult to beat.

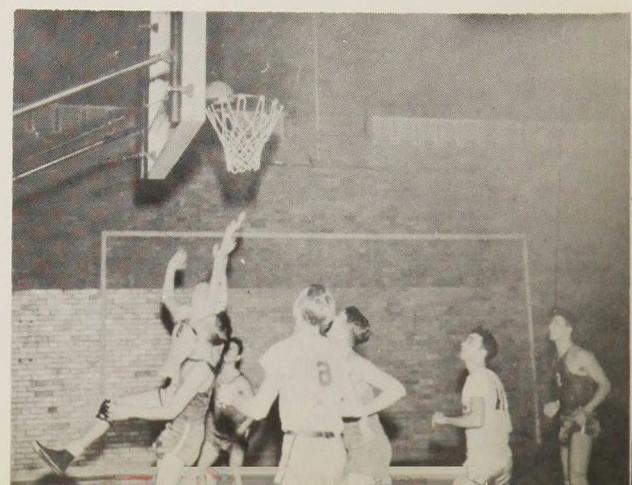

Both in victory and defeat, this year's team, in all probability, proved to be one of the best ever produced by Bloomfield. It was a fighting team of which we, or any college, could rightly be proud.

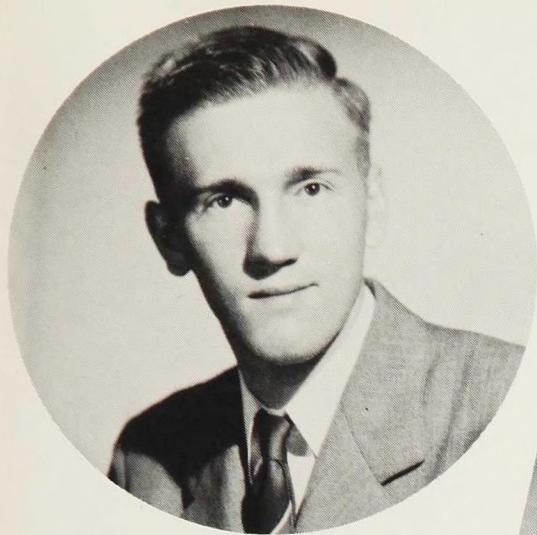

Our hats are off to you, our team!

Baseball, which is the newest addition to the intercollegiate program at Bloomfield, was instituted in the spring of 1949. In 1950 the Varsity baseball team entered its second year of competition. This team, like the basketball team, became a member of the New Jersey Inter-collegiate League and thus faced a formidable array of opposition. Experienced lettermen from last year's squad

formed the nucleus of the 1950 Varsity. This, supplemented by several new strong pitching arms, produced a marked improvement over last year's team.

The Varsity nine encountered much difficulty from the powerful diamond crews of larger colleges. But to face stronger teams is a Bloomfield tradition. Win or lose, we will always remember the fighting spirit of our Bloomfield Varsity nine.

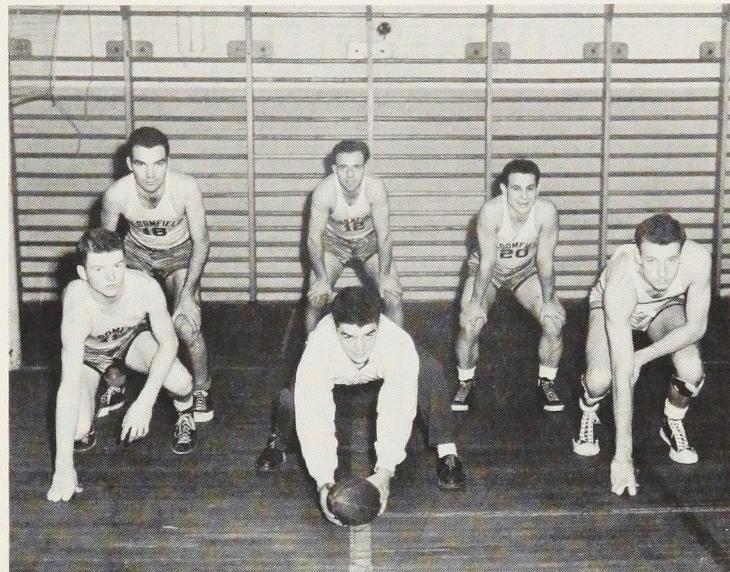

Members of the 1949 team which formed the nucleus of the 1950 team. Front row: D. Ross, G. Federbush, D. Thomas, M. Blasi, A. Essig, W. Wentzien. Back row: M. Gioseffi, J. Galloway, A. Casciotta, L. Lippincott, J. Ialenti, J. Colon, L. Furnari, G. Evans (manager).
